Periodic business risk evaluation is approved by Boards of each listed Company Independently

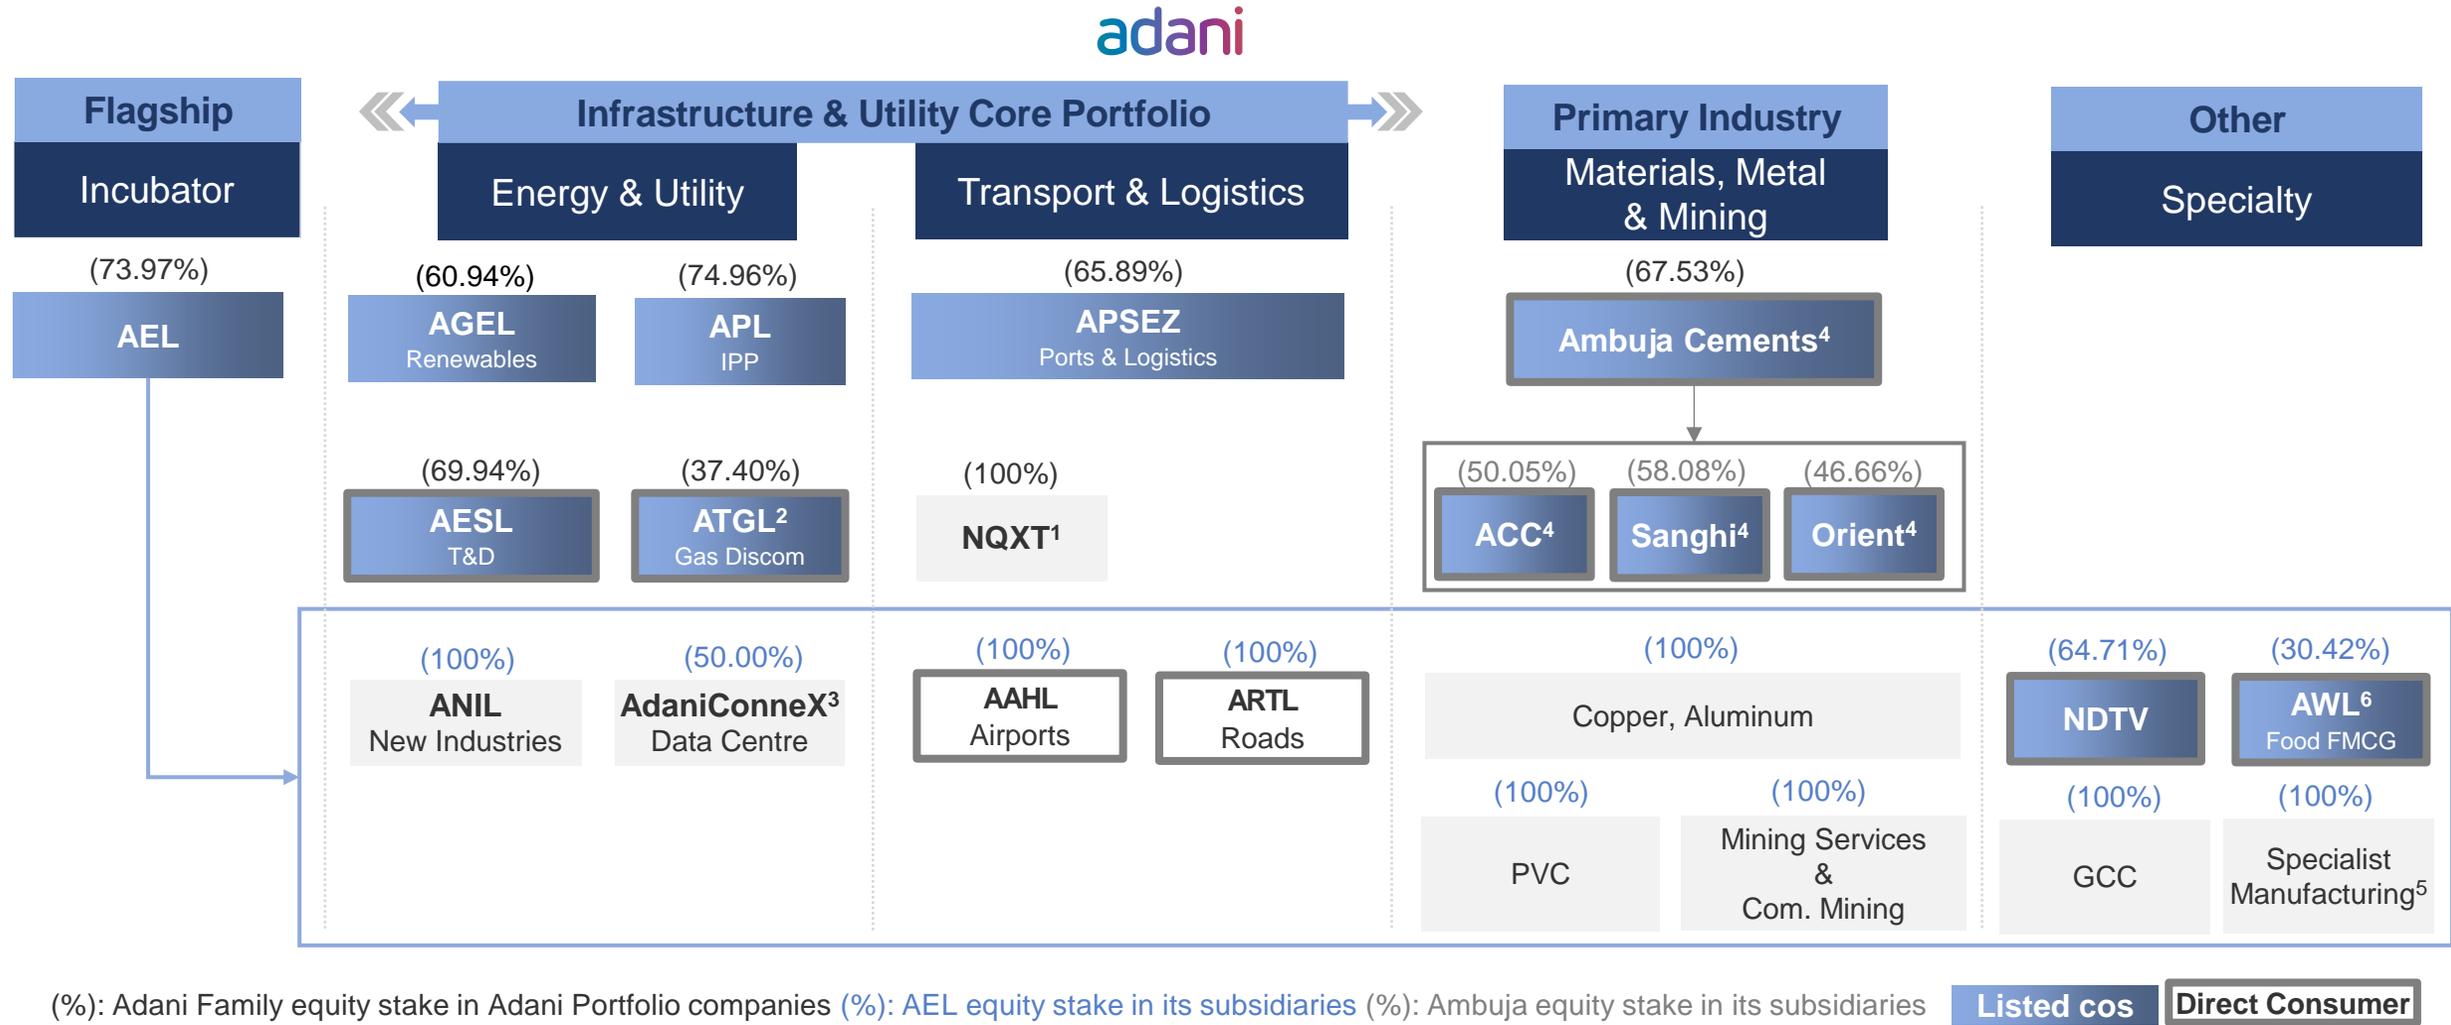

1. Despite the increase in the share of Merchant revenue in AGEL, the full EBITDA of AGEL continues to be considered as Contractual. This is due to the must-run status of Renewable Power in India under the Electricity Act, 2003, which mandates that any generation must be fully dispatched.

EBITDA: Earning before Interest Tax Depreciation & Amortization | Data as on 31st March 2025

ICRA : AA/ Stable

The long-term rating upgrade of Adani Total Gas Limited (ATGL) takes into account its improving financial risk profile, backed by continued growth in sales volume which in turn has resulted in a higher scale of operations and better profitability. The overall contribution margins have been on an uptrend amid a favorable gas allocation policy for the city gas distribution (CGD) sector as well as robust growth in compressed natural gas (CNG) volumes. The ratings also factor in the rising revenue share from the new geographical areas (GAs) awarded in the recently concluded ninth and tenth CGD bid rounds.

Domestic Ratings

CRISIL: AAA / Stable

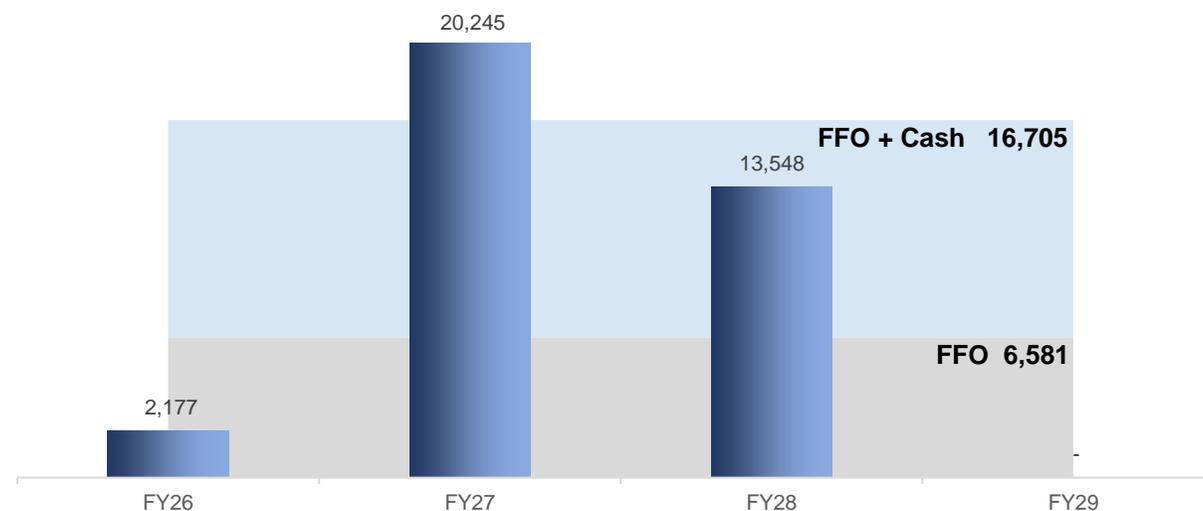

The ratings factor in the strong business risk profile by virtue of Ambuja and ACC Ltd (ACC; 'CRISIL AAA/Stable/CRISIL A1+') being the second-largest cement group in India. The strong presence of the Adani group in coal, power and logistics verticals will result in structural reduction in cost of production of cement owing to synergy benefits strengthening the business risk profile over the medium term.

The financial risk profile of the company will remain strong over the medium term supported by a debt-free balance sheet and robust liquidity. While the extent of improvement in cost of production from higher synergies remains a monitorable, CRISIL Ratings believes that the capex plans could anyways be funded via internal accruals, existing cash balance and share warrant money over the medium term and hence, does not expect leveraging of the balance sheet.

The conversion rate as of March 31, 2025, is 1 USD = INR 85.475, as per FEDAI.

Cash Balances include Cash & cash equivalents, bank balances, current investments, market value of marketable securities (non-current investments), balance held as margin money & deposit for more than 12 months | Run-rate EBITDA considers annualized EBITDA for assets commissioned after the start of the year | EBITDA: Earning before Interest Tax Depreciation & Amortization, EBITDA: PAT + Share of profit from JV + Tax + Deferred Tax + Depreciation + Finance Cost + Unrealized Forex Loss / (Gain) + Exceptional Items | FFO: Fund From Operations | FFO: EBITDA-actual Tax paid- Actual Finance cost paid (excl.
